

Field-service SaaS. Built. Working. AI-enabled.

Acquire a working platform connecting sales, field operations and payments, with integrated AI, workflow automation and SaaS administration already implemented.

For HVAC, plumbing, electrical & service contractors.

Lead → Estimate → Work order → Invoice → Payment

Working product

Sales, jobs & payments
in one connected system.

Integrated AI

Contextual assistance,
receipt & statement extraction.

Live demo

Explore the application
and its working workflows.

Three products. One platform.

NEXUS OFFICE

Run the business.

Sales, scheduling & finance.

NEXUS FIELD

Run the work.

A dedicated mobile workspace.

NEXUS PLATFORM

Run the SaaS.

Tenants, billing & support.

See the product. Explore the opportunity.

The platform behind the opportunity.

Office	CRM, estimating, scheduling, invoicing, expenses & reporting. Customers approve estimates and pay invoices by link. No customer account required.
---------------	---

Field	Mobile work orders, job updates & technician workflows. Estimates, invoices & expense capture.
--------------	---

SaaS operations	Tenant plans, usage, support & SaaS subscription billing. Stripe Connect for service-business customer payments.
------------------------	---

Integrated AI	Contextual assistance within business records. Receipt and bank statement extraction via OpenAI.
----------------------	---

Automation	Event- and schedule-driven follow-ups. SMS & email communication.
-------------------	--

BUILT WITH

Application	Next.js 16 / React 19 / TypeScript / Tailwind CSS 4
--------------------	---

Data & access	PostgreSQL / Prisma 7 / Better Auth
--------------------------	-------------------------------------

Integrations	Stripe & Connect / OpenAI / Telnyx / Cloudflare R2
---------------------	--

Software asset scope

Office, Field & Platform source code. Database schema & migrations.

Automation, AI implementation, tests & technical documentation.

Deployment configuration, operational scripts & demo data.

Start with the live demo.
